

PRO SATIN

GCLP.S70

High quality optically brilliant polymeric PVC satin laminating film. The pressure sensitive adhesive is solvent-free, environment friendly, giving the enhanced benefit of avoiding discoloration of the print or inkjet media. Suitable for long term outdoor and indoor light box applications.

FEATURES

Polymeric PVC-film, outdoor durability up to 4 years
One-side coated adhesive, polyacrylate, solvent-free, pH-neutral, age resistant
The adhesive provides excellent adhesion to printed media incl. UV-Inkjet printed materials
Single side siliconized release paper
Printed materials are guarded from UV radiation, humidity and abrasion
Laminating for silver halide photography, inkjet and digital printed materials

PHYSICAL PROPERTIES

Carrier	Soft-PVC-film, 70µm, polymeric
Total Thickness	100 µm
Surface	Satiniert
Adhesive	Solvent free, polyacrylate, permanent
Liner	Single side siliconized glassine paper, white, 63 g/m ²
Peel adhesion	11 (AFERA 5001)

ENVIRONMENTAL CONDITIONS

Operating	8°-40°C
Storage	18°-22°C (50-60% rH non condensing)

AVAILABLE SIZES

65 cm x 50 m
104 cm x 50 m
137 cm x 50 m
160 cm x 50 m

ADDITIONAL INFORMATION

The estimated durability is based on accelerated ageing tests and refers to a vertical exposure under middle European climates. The durability of the product depends on the substrate's preparation, the atmospheric conditions and the environmental influence. Exposure to extreme condition (tropical climate, desert climate, high humidity, high UV-light exposure or polluted areas) may cause rapid deterioration.

Please include always the batch number to questions about the product or complaints.
